

## **Alexandre Gali Serra**

### **Technology Strategy Manager at Suez Spain**

Alexandre is a Chemical Engineer and Doctor in Chemical and Environmental Engineering from the University of Barcelona. Professional with 15 years of experience in the Water and Environment sector. From 2018 he is responsible for the Technological Strategy of Suez Spain within the CTO.

The Technology Strategy Area is responsible for identifying and evaluating external technologies, with the aim of incorporating them into the Suez portfolio of services, either through partnerships or investment.

Between 2018 and 2011, he worked at Cetaqua, Water Technology Center, Private Foundation, dedicated to the development of R&D projects, first as a researcher (2011-2012), then as head of the Sanitation, Drainage and Energy Research Area (2013-2015), and finally as Director of Development of the center, overseeing the futures plan and relations in R & D & I (2016-2017).

Between 2008 and 2011, he worked as an ATCSA Engineering technician supervising Innovation pilots, in wastewater treatment, carrying out process simulations and performing technical assistance to treatment plants.

Finally, between 2002 and 2008 he worked as a researcher at the University of Barcelona doing the Thesis (2002-2006) and the Postdoc (2006-2008)
