

JETRO-Mekorot Water Tech Seminar

Sep 14 at 1-3pm

@Tel-Aviv Exhibition Centre

Inside WATEC 2017

The Israel-Japan Water Technology Potential

Presentations, Networking, Business!

This seminar, organized by JETRO and Mekorot Water Company, is aimed at introducing potential co-operation in the water technologies industry, between Japanese and Israeli companies. Israeli and Japanese companies will present their solutions to today's burning needs in the water market, and elaborate on their interests and areas of potential collaboration.

The event will include time for networking to strengthen potential collaboration opportunities. The Seminar will be held in English.
