

Ronen Shechter is CTO in Fluence Corporation.

In 2008 he co-founded and was CTO in Emefcy, which created MABR based solutions while also developing electrogenic bio reactors. In 2015 Emefcy merged with RWL Water to create Fluence.

Previously, in 2001 Ronen co-founded AqWise and was CTO there for 7 years. AqWise developed and provides its own MBBR and IFAS solutions.

Ronen has 28 years' experience in water and wastewater technologies with over a dozen patents and applications in the field. He is a chemical engineer, graduated in 1991 cum laude from the Technion – Israel Institute of Technology.
